SOVIETS ADVANCE ON CENTRAL FRONT; GREAT BATTLE SHAPING UP IN AFRICA

TUNISIAN FIGHTING SLOWED DOWN BUT BIG EVENTS ANTICIPATED

ONLY THING FOR AXIS TO DO IS FIGHT TO FINISH IN NORTH AFRICA

By WES GALLAGHER
ALLIED HEADQUARTERS IN NORTH AFRICA, March 11.—(AP)—A battle raving in the struggle at Stalingrad in bitterness and intensity—with Field Marshal Erwin Rommel and Col. Gen. Jürgen von Arnim threatened by the same fate as their counterparts in Russia—appeared in the offing today as the British Eighth Army made exploratory attacks at Rommel's forces in the Mareth Line.

This is the conclusion reached by some military observers in close touch with the African fighting. They agree that Rommel's failure to cripple the Eighth Army in his week-end attacks was a serious blow and declare his heavy losses in men and material mean that the axis has reached the peak in Tunisia and is now on the down grade. After four months of fighting these facts were becoming evident:

1.—With the Royal Navy controlling the sea and allied air forces holding the whip hand in the air, Dunkerque is possible for the axis and the only alternative is that Rommel and von Arnim fight to the finish in the manner of the Nazi army trapped before Stalingrad.

2.—American bomber sweeps over the Mediterranean and surface and submarine warfare are cutting heavily into Rommel's strength while gigantic allied convoys arrive safely, pouring in troops and munitions.

3.—Despite his violent struggles, Rommel is still in an exposed strategic position, facing the experienced Eighth Army in one direction and with the newly battle-tested British American First Army on his flank ever ready to slice his slender thread of communications south from Bizerte to the Mareth Line.

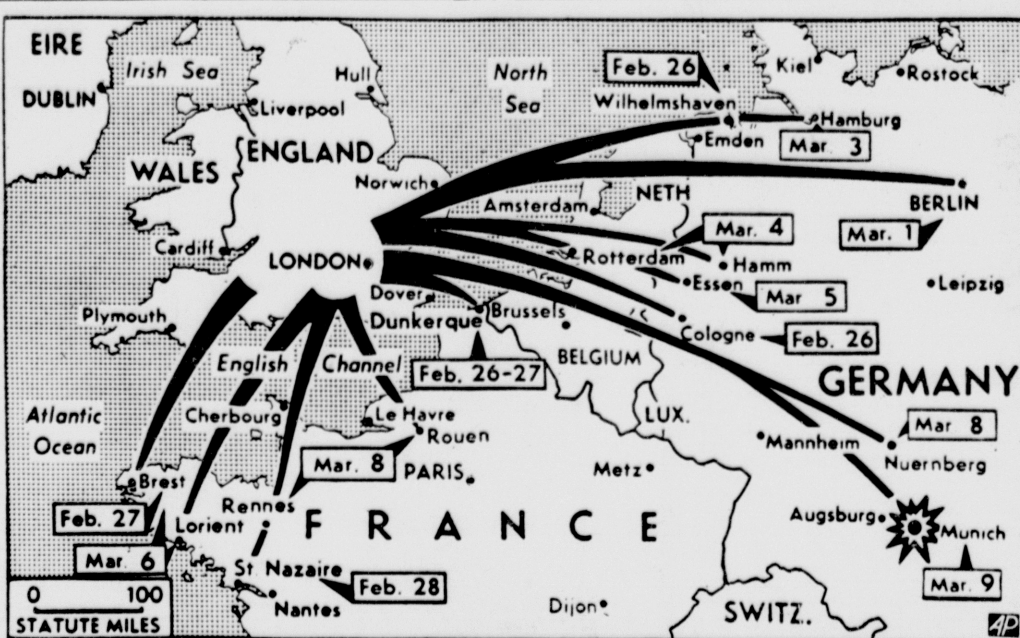

4.—Tunisia must be cleaned up quickly or the whole allied Mediterranean timetable to attack Europe is likely to be thrown off schedule.

Allied Forces Held Upper Hand Tunisia

WASHINGTON, March 11.—(AP)—Allied forces in Tunisia "had much the better of the fighting last week," Secretary of War Stimson reported today. But he added that losses on both sides "have been substantial."

The secretary said at his press conference that casualty reports from North Africa are incomplete, but that the Allies have taken more than 1,000 German and Italian prisoners and destroyed well over 100 Axis tanks.

The heaviest American losses he said, occurred in the week of February 14-20, the period of the American retreat and initial counter-attack on the central front—when casualties were 59 killed, 176 wounded, and 2,007 missing. Most of the missing, Stimson said, probably were taken prisoner, but it is possible some of them might yet return to the American lines.

ALLIED OFFENSIVE GROWS WITH RAID ON MUNICH—Munich, Germany's fourth largest city, an industrial center and site of the Nazi "brown house," was heavily bombed by the RAF on the heels of a previous heavy raid on neighboring Nuremberg. Map shows targets and dates of major Allied raids since the present air offensive began late in February.

CEASELESS BOMBING ACTIVITIES OF RAF BRINGING RESULTS

MORE THAN TWO THOUSAND GERMAN FACTORIES HAVE BEEN WRECKED

LONDON, March 11.—(AP)—The RAF's ceaseless bombing offensive, now showering German Europe with fire and explosives at the rate of more than 10,000 tons a month, has already wrecked more than 2,000 German factories and left more than 1,000,000 Germans homeless, Air Minister Sir Archibald Sinclair told the House of Commons today.

Declaring that photographic reconnaissance showed that the raid on Essen, home of the Krupp armaments, on the night of March 5-6 "probably was the heaviest blow struck at German war industry in the whole of the bomber offensive," Sinclair disclosed that already 4,000 tons of bombs have been dropped on the Reich this month.

The devastation at Essen, he said, was comparable only to that caused at Cologne last May in the first of the RAF's 1,000-bomber raids.

Direct damage to steel works in the Ruhr and Saar, he declared, had cut 1,250,000 tons from Germany's annual steel-making capacity.

Damage to the Philips Radio Works at Eindhoven, Holland, cost the Germans the loss of millions of radio tubes annually, a critical loss in modern warfare, he added.

Promising even greater exertions by the RAF, Sinclair added a statement which seemed an indirect answer to criticism of the United States Army Air Force's day bombing policy.

"The Americans are lion-hearted, skillful fighters," he said. "Their methods are a complement to our own. They are precious and welcome allies. The more American bombers come to take part in the air offensive, the better we shall be pleased and the sooner the malignant power of Germany will be broken."

Speaker Sam Rayburn directed the proceedings tactfully and easily presenting the representatives to the president.

Coffee Rations Going Back Upon Five-Week Basis

WASHINGTON, March 11.—(AP)—Coffee rations will go back to one pound for five weeks beginning March 22.

Price Administrator Pennington announced the increase today, saying the "welcome news to tens of millions of American coffee drinkers is made possible by the improvement during the past few weeks of the import situation."

The current ration is one pound a person for six weeks. The next coffee stamp, No. 26, in Ration Book No. 1, which is also used for sugar and shoes, will be valid between March 22 and April 25.

Brown said the increase amounted to 16 per cent and explained "coffee imports for February have exceeded estimates by more than 20 per cent, adding substantial amounts to previously depleted January inventories of approximately 145,000,000 pounds."

The Army and other government agencies have cooperated in improving the supply situation, Brown said, adding that the increase "emphasizes one of the basic principles of OPA policy, that of relaxing rationing restrictions wherever it is as soon as circumstances permit."

RED ARMY TROOPS ALMOST COMPLETED ENCIRCLEMENT MOVE

GERMANS HAVE ONLY NARROW RETREAT CORRIDOR TOWARD SMOLSK

By EDDY GILMORE
MOSCOW, March 11.—(AP)—Red army troops all but completed the encirclement of Vyazma today and left the Germans only a narrow corridor for retreat toward Smolensk from that stronghold 125 miles west of Moscow.

The pincers about Vyazma was tightened by the capture of Isakovka, 15 miles southeast of the city on the Vyazma-Kaluga railway, the Russian said.

CONGRESS INDICATES CLEARLY WILL MAKE OWN CONCLUSIONS

POST WAR ECONOMIC PROBLEMS SETTLEMENT TO COME AFTER PROBES

WASHINGTON, March 11.—(AP)—Congress gave clear-cut signs today that it intends to make thorough-going, independent investigations of executive recommendations before determining any formula for the settlement of post-war economic problems.

Administration leaders were reported to have given clearance to a proposal by Senator George (D-Ga.) to establish a nine-member post-war planning committee and George told reporters he would ask for a \$50,000 appropriation to assemble a staff and launch an immediate inquiry.

Tentative arrangements were made to refer to the group a report of the national resources planning board sent to congress yesterday by President Roosevelt with the expressed hope that the legislators would begin at once a study of the problem of the transition from war to peace and the longer range development of an expanding economy.

The board's recommendations were presented by President Roosevelt yesterday for "full consideration during this session" to congress.

The post-war plan's chief features included recommendations that: Demobilization of the armed forces.

FIREPOWER AND NOT BULK'S MAIN THING IN FIGHTING TANKS

By WILLIAM FRYE
WASHINGTON, March 11.—(AP)—It's not the size of the tank in the fight, but the size of the fight in the tank that counts.

So says Maj. Levin H. Campbell, who offered to bet today that the 60-ton heavy tanks would disappear from the battle fields before the end of the war. Firepower, not bulk, is the test of any tank, he said.

The blunt-spoken chief of ordnance, asked about reports that the Americans in Tunisia had "nothing to match" the German Mark VI 62-ton monster tanks, said the army had four mobile field guns that would—and had—put shells through the German armor.

HOUSE REPUBLICANS PLAN TO MOBILIZE FOR RUMI TAX PLAN

WAYS AND MEANS COMMITTEE BILL WOULD NOT GIVE ANY TAX REBATES

By FRANCIS M. LE MAY
WASHINGTON, March 11.—(AP)—The house Republican steering committee laid plans today to align the party's strength behind the Rumi plan to abate a year's income taxes and put the nation's 44,000,000 taxpayers on a pay-as-you-go basis.

Republican Leader Martin of Massachusetts reported that the committee supported the Rumi plan unanimously, and predictions were made freely by Republicans that sufficient strength can be mustered to pass the "skip a year" tax proposal in the house.

Martin, in whose office the steering committee met, said "an overwhelming majority" of his party's 239 members would vote for the Rumi plan, and the committee arranged for a party caucus Monday to mobilize for the floor battle on the abatement issue.

The house ways and means committee has turned down all proposals for canceling any tax obligations in the transition to a pay-as-you-go basis.

Rumi Plan Answer.
Martin told newspapermen that "unless everybody in the country is going to pay more than one year's taxes this year," the plan suggested by Beardsley Rumi, New York banker, and embraced in a bill by Representative Carson (R-Ill.) is the only answer to the problem of putting income taxpayers on a current basis.

Leaders of the skip a year proposal described as "a great disappointment" to the taxpayers' the income tax collection plan approved yesterday by the ways and means committee, making "pay-as-you-go" compulsory on each taxpayer without any tax abatement, and imposing a 20 per cent withholding levy against the taxable portion of wages and salaries, effective July 1.

The committee action, putting aside all long-debated pay-as-you-go proposals, transferred to the house floor the battle over income tax abatement as an element in achieving a current payment basis.

Committee Compromise.
As explained by its members, the compromise approved by the ways and means committee would provide:

1. Persons with taxable income in 1942 of \$1,000 or more to return the 1942 obligations by March 15 and another quarter by June 15, as usual.

2. Such taxpayers would come under the withholding levy, starting July 1 if they earned wages or salaries, and would have the option of continuing to pay in one year on the basis of income in the previous year as at present, or if they desired now or in the future, could "double up" by paying

See TAXES, Page 8.

American Fighter Planes Slap Back Japanese Attack

WASHINGTON, March 11.—(AP)—American fighter planes slapped back a Japanese aerial attack by ten dive bombers and 12 fighters in the Solomons, the Navy reported today, while in the North Pacific bombers hit hard at Japanese positions on Kiska in the Aleutians.

UNITED STATES LEND LEASE PROGRAM BIDS FAIR LAST OUT WAR

ACTION OF HOUSE REPUBLICANS ADDS TO UNCERTAINTY OF TAX MATTERS

WASHINGTON, March 11.—(AP)—The lend lease program was two years old today and the anniversary, highlighted by a report that it already is pushing the ten billion dollar mark, held every indication that it is sure to last out the war.

This apparent certainty, born of the 407 to 6 endorsement of the house and the senate's obvious liking for the mutual aid arrangement contrasted with a situation in which congress headed for a battle over the tax abatement issue.

E. R. Stettinius, Jr., lend lease administrator reporting on the first two years of his fast-growing agency told congress that "almost as much aid was provided (the allies) in the last six months as in the previous 18 months."

While it was not sure whether the senate could get a vote today on extending the program another year, prospects were that the extension measure would be ready by President Roosevelt's signature within a week.

The uncertainty of the tax situation was pointed up by a decision of the republican steering committee in the house to throw the party's strength against the tax abatement as an element in the Rumi plan and to work instead for the Rumi plan to skip a year of taxes in the transition to pay-as-you-go basis.

On the war and home fronts, respectively, were a review by Secretary ROUNDUP, Page 8.

AMERICAN PLANES IN BLASTING ATTACKS JAPS IN SOLOMONS

NO UNITED STATES PLANES LOST IN WIDESPREAD AIR ACTIVITY

(By The Associated Press.)
American warplanes returned the skies in the South Seas battle after blasted three Japanese bases in the Central Solomons and broke up a 22-plane Japanese attack northwest of Guadalcanal Island, shooting down four enemy raiders and the navy today added this tagline of victory.

"No United States planes were lost during these actions."

Ten Japanese dive bombers, escorted by 12 zero fighters, made up the attacking force which was presumably headed for American-held Guadalcanal. One of the bombers and three zeros were shot down.

There were any U. S. planes lost, the navy said, in a sizeable attack on the Japanese outpost at Kiska in the Aleutians where hits were scored in the enemy encampment. Allied warplanes, striking at Japan's vital supply lines, were officially credited with destructive attacks on five more Japanese merchant ships in the Southwest Pacific, while on the Burma front the RAF continued to punish Japanese invasion forces.

American airmen also hit the enemy in Burma, with U. S. heavy bombers dropping a 12-ton load of high explosives on the Pazydaung Bridge north of Rangoon.

STIFFENING GERMAN RESISTANCE CRUSHED BY RED ARMY TROOPS

BATTLE FOR KHARKOV APPEARED INDECISIVE SOVIETS REPORTED

By ROGER GREENE
Associated Press War Editor.
Soviet headquarters declared today that the Red armies on the central front had captured at least 44 towns and villages, crushed stiffening resistance and advanced within 80 miles of Adolf Hitler's old headquarters at Smolensk.

Although virtually out-flanked by the Red Army's capture of Bely, the nazis were battling desperately to defend their grip on the key bastion of the last major barrier on the road to Smolensk.

Latest Soviet dispatches said the Russians had all but completed the encirclement of Vyazma, leaving the Germans only a narrow corridor for retreat toward Smolensk.

Red army columns were reported driving forward and wading the enemy apart along a broad front, with the Germans bitterly resisting and using dug-in tanks as pill-boxes.

The enemy made stubborn attempts to halt our advance and defense positions," the Russian command said, referring to the Vyazma sector.

"As a result of fierce fighting, our units overwhelmed the enemy's defenses and captured a number of populated places."

Russians Near Vyazma.
Russian shock troops were reported with 15 miles of Vyazma at its nearest point, and a communiqué said more than 20 towns fell to Soviet forces operating in the vicinity. In addition, "several dozen" villages were engulfed in the Bely sector, 70 miles north-west.

On the flaming Kharkov front, 400 miles below Moscow, Red army headquarters said the Germans were continuing to throw great masses of reserves into their combat efforts against the "Soviet Pittsburgh," but so far the battle appeared to be indecisive.

Hitler's high command said the Germans had driven closer to Kharkov and "the battle is being waged at the northern and western edges of the city."

Only Twelve Miles Away.
Berlin claimed two days ago that Nazi shock troops were only 12 miles from the city, and a communiqué whose capture by the nazis would threaten the middle of a 400-mile front in southern Russia.

The Soviet command said a "ferocious" battle was being fought south of Kharkov, and declared that in one phase of the struggle the Russians encircled a battalion of tanked Nazi automatic riflemen, destroying 15 tanks and "wounding" many.

On the Tunisian front, Gen. Sir Bernard L. Montgomery's promise to give the axis a "very bloody nose" was marked by exploratory thrusts against the 8th mile-long line in Southern Tunisia as the British 8th army prepared for a climactic assault.

Rain and sandstorms prevented See INTERNATIONAL, Page 8.

Seeking Farm Labor For West Texas in East Texas Sector

DALLAS, March 11.—(AP)—The Farm Security Administration is seeking among certain seasonal workers in East Texas 200 families to fill contracts for year-round farm employment in West Texas labor shortage areas.

Ted Watson, assistant regional FSA director, disclosing the program last night, said "we have orders now for 200 and expect to have orders for another 100 in a week or two."

The West Texas contracts guarantee heads of families \$70 to \$75 a month minimum, Watson said, those now being recruited are being sent to the sections near Lamesa, Lubbock, Ropesville, and Muleshoe.

RUSSIAN AND NORTH AFRICAN ACTIONS EXCELLENT EXAMPLE OF INTERDEPENDENCE WAR THEATER

By DEWITT MACKENZIE
Hitler hurts his legions against Kharkov, key city of the strategic Ukraine, in a desperate effort to repair the Red ravages on the right wing of his threatening battle line—and the necessity for speed controls his tactics.

The great Montgomery's deploys his famous British Eighth army for another smash at his favorite enemy, Rommel the Reynard, along the strongly fortified axis Mareth line in Southern Tunisia—and he, too, is competing against time.

Actually the Nazi and the hard-bitten Briton are racing each other. We have in these widely separated operations an excellent example of the interdependence of the various war theaters.

Hitler is straining to achieve his objective before the allies can open up a front in France and compel him to withdraw strength from Russia. He is said to be using 12 fresh divisions from western Europe in his present ferocious assault.

And Montgomery, with the other allies under General Eisenhower's command, is going all out for a quick annihilation of the axis forces in Northern Africa, because the opening of a front in France must await the conclusion, or near conclusion, of the Tunisian show.

At first glance it might seem that the Nazi chief was getting set for another huge offensive in an effort to reach the oil fields of the Caucasus and break through into the Middle East as soon as the good weather and dry roads of early summer have arrived.

I believe the real answer is that Hitler is trying to maintain the very large degree of control which he has had over the Black Sea because of his occupation of the northern and western coastline, together with the Crimea and Russia's great naval base of Sevastopol. In order to retain his hold on this strategic water he must keep his right wing anchored where it now is—near Rostov, where the Don River empties into the Sea of Azov.

One reason for this anxiety about the Black Sea is that if the Russians regained use of it for their navy and transports they could bring powerful additional pressure to bear on the German "light flank," and might roll it back with disastrous results. Another and much more important reason is this:

Turkey's position is such that Hitler can't be sure from one minute to the next whether she may join the allies against him.

British Premier Churchill's visit to Ankara a few weeks ago set that part of the world flaming with the report that the Turks were ready to strike.

TEXAS SENATE BILL TO SETTLE MATTER OFFICE VACANCIES

AUSTIN, March 11.—(AP)—Awaiting senate consideration today with a favorable vote from the State Affairs committee was a bill providing that absence of state, county and district employees in military service shall not create forfeiture of vacancy of office.

Sponsored by J. Franklin Spears of San Antonio, the measure recognizes a temporary vacancy in such cases and authorizes appointment of a temporary official to serve during the military absence of the regular official.

Spears said the bill would not apply to members of the legislature. Five members of the senate and 13 members of the house are in uniform.

Also winning favorable votes at the committee's public hearing yesterday were bills:

Repealing the state tax on ores, by Harold Beck of Texarkana and A. M. Aiken, Jr., of Paris.

Requiring office rent contracts of state agencies to be approved by the Board of Control, by R. C. Lanning of Jacksonville.

Authorizing creation of the office of county purchasing agent for Jefferson county, by Allan Shivers of Port Arthur.

Repealing the employment agency law, by Rep. Harvey J. Shell of Gregory.

Other Bills Favored.

Sent to the floor with favorable reports by the committee on criminal jurisprudence were bills:

Directing that habeas corpus be granted to a prisoner.

The Moore proposal would raise present age limits from 14 to 16.

NAVARRO COUNTY RESIDENTS RAISING MANY CHICKENS TO AUGMENT BIG FOOD PRODUCTION

Newest addition to the lists of Victory foods to be raised by the patriotic citizens of Navarro county is fried chicken, Southern style. Corsicana poultry houses and hatcheries are reporting skyrocketing sales of baby chicks, but the assures the public that there is a sufficient supply. Hatchery managers suggest that anyone wishing to buy a large number of baby chicks, and to be absolutely sure that they will be in stock, should phone in as far ahead of time as possible and book the number of chickens they desire.

Cost Is Small.
Figures released by H. C. Robinson, county agent, regarding the cost of raising baby chickens to the eating size (and he is giving these figures from actual personal test) states the total cost including the purchase of the baby chicks, feed, etc., is 35 cents a piece for eight-weeks old, two pound fryers. This is exactly one-half the cost of this same size fryer at the market.

Robinson bought 20 chicks, 12 cents each, and lost only one in raising them. Four pounds of mash, one pound of grain, and five cents worth of electricity were the only expenses. The

and to 13 where the child is in school. It would provide \$9 monthly for one child and \$6 where there were more than one child in the family.

The woman jurors proposal was reported favorably after its author, Rep. Carlton Moore of Houston was denied permission to offer a substitute.

chicks were raised in a homemade brooder. A brooder of this type is on display at the county agent's office at the Navarro county court house, to be copied by anyone interested. Fifty chicks can be started in the brooder in which they can be fed, watered, and warmed, until they have reached the frying size (about eight weeks) without ever touching a foot to the ground.

NEW ORLEANS, March 11.—(AP)—Ocean Wave, Whirlaway and the nine other Calumet Farm horses quartered here will leave for Hot Springs late this week or the first of next week. The object of the trip is to have the Wave carry Warren Wright's silks in the \$10,000 added mile and a furlong Arkansas Derby at Oaklawn Park March 27.

part, in which an electric light is connected for warmth, is four feet long, three feet wide. The screen runway, in which the chicks are watered and fed, is the same size. The runway is screened on all four sides and rests on legs which keeps the chicks off the ground. Cost of building the brooder is about \$4 if new material is used. The ration board will grant anyone sufficient wire with which to build it. Bulletin and blueprints with more information can be obtained at the county agent's office.

High Food Value.
In encouraging the people of this county to raise their own poultry, Miss Vera Sneed, county home demonstration agent, stated that there is as high a food value in chickens as in any other kind of meat. Raising chicks in the

Capt. John Mays Is Highly Praised By General Kenney

Praising the courageous achievements of Capt. John C. Mays while on active duty in the overseas air forces of the United States army, Lieut. Gen. George C. Kenney, commanding officer of the Fifth Air Force, in a letter to the captain's mother, Mrs. John R. Mays, 503 South Fourteenth street, notified her that the Distinguished Flying Cross had been recently awarded her son.

The letter follows:
"Dear Mrs. Mays: Recently your son was awarded the Distinguished Flying Cross. This award was made in recognition of his courageous, fearless service to his country, his country, his home and to you."

"Your son was decorated for extraordinary achievement while participating in aerial flights in the

homemade brooder requires very little care, and makes it possible for people to raise a victory garden and plenty of fryers all at the same time, without having to keep the part of a scarecrow to play the chickens out of the garden, she pointed out.

There has already been reported a 11 per cent increase in the number of chickens in Texas this year, Miss Sneed said. Poultry is not rationed, so the market for chickens is very large this spring.

The smaller-bodied type of chicken should be raised for egg production, and the larger-bodied for eating, Miss Sneed suggested, unless a person has had experience in raising poultry and already knows his preferred type.

Dallas Woman to Sponsor Launching U.S.S. Donnell

Mrs. Earl R. Donnell of Dallas, mother of the late Ensign Earl R. Donnell, Jr., will be the sponsor when the escort vessel U. S. S. Donnell, named in honor of her son, is launched Saturday at Quincy, Mass. The navy announced Monday.

Donnell was killed in a scouting squadron attack on the Marshall Islands, Feb. 1, 1942. The 23-year-old naval aviator was awarded the air medal for the initial attack on Rapaia atoll in which he lost his life.

J. R. Donnell, Corsicana, grandfather of the hero, accompanied by his son, Earl, Jr., of Dallas, left Tuesday afternoon for Boston to attend the ceremonies incident to the launching of the vessel.

The following letter was received by Mr. Donnell, inviting him to attend the event:

"Dear Mr. Donnell: The USS Donnell is to be launched at the Bethlehem-Hingham Shipyard on Saturday afternoon, March 13, at 5:50 o'clock, Eastern War Time. Mrs. Earl R. Donnell, Sr., mother of the man for whom the vessel is named, will act as sponsor."

"We should be very happy to have you as our guest at the launching and at the reception for the sponsor which will follow immediately afterward in the administration building."

"Cordially yours,
"Vice President and Gen. Mgr."

Southwest Pacific areas from December 8, 1941, to November 6, 1942.

"He took part in more than two hundred hours of reconnaissance missions over territory that was continually patrolled by enemy fighter aircraft. These flights included long range, single plane reconnaissance missions over enemy bases, airdromes, and shipping, in which heavy anti-aircraft fire was encountered. These operations aided considerably in the recent success in this theatre."

"Almost every hour of every day your son, and the sons of other American mothers, are doing just such things as that here in the Southwest Pacific."

"There is a very real and very tangible contribution to victory and peace."

"I would like to tell you how genuinely proud I am to have had men such as your son in my command, and how gratified I am to know that young Americans with such courage and resourcefulness are fighting our country's battle against the aggressor nations."

"You, Mrs. Mays, have every reason to share that pride and gratification."

"Very sincerely,
"GEORGE C. KENNEY,
"Lieutenant General Commanding."

Rice Flier Aids In Sinking Axis Ships Off Africa

ALLIED HEADQUARTERS IN NORTH AFRICA, March 8.—(Delayed)—(P)—Sergeant Robert M. Brunner, of Dixon, Cal., has shot down his fifth Messerschmitt to become one of the first sergeant-pilots in the United States Air Forces here to qualify as an ace.

He was a member of the crew of a Mitchell bomber piloted by Lt. Robert M. Hamilton, 23, of Kenmore, N. Y., which bomber two Axis ships, fought off three German fighter planes and returned to its base with 115 bullet holes in it. The bomber is named the "June Bug" for Lt. Hamilton's wife.

Fliers in other Mitchell bombers credited with sinking one merchant ship, leaving another sinking and setting fire to two others include:

Sgt. Scott T. Bowden, Rice, Navarro County, Texas, and Corporal Leo C. Rogers, Deaf Smith, Co., Texas.

Sgt. Bowden is the son of Mr. and Mrs. John Bowden of the Tuleo community and is a cousin of John McNutt of the Vahl Bottling Company here. Before enlisting in the air forces about two years ago, Sgt. Bowden was employed by his cousin here. He was stationed at Randolph Field and Harlingen, and relatives here Tuesday afternoon stated the last word received directly from Sgt. Bowden was some time ago and at that time he was stationed in England.

Appeals for Help Stop Mass Murder Of Jewish Race

Appealing for the help of all in putting an end to the mass murder and destruction of the Jewish race in Germany, Ludwig Lewisohn, international figure in literature, spoke Tuesday evening, in a public lecture sponsored by the Corsicana Lion Club at the Senior High School auditorium.

In 1933, war was declared against the Jews, that is why we Jews know better than anyone what harm and injustice is being done in this war," the speaker pointed out, in telling of the declaration of war by the national socialist party in Germany against the German Jews.

Stand For Democracy.
Reasons given by the socialist party for this stand were, the Jews stood for democracy, peace, and brotherly relations, inventions of the Jews which had corrupted the European nation. These were the things which could destroy the national socialist party, if they were not destroyed, Lewisohn stated.

All of these things that this party was against were started by the Jews; they were the living embodiment of these things, he said.

"We should be very happy to have you as our guest at the launching and at the reception for the sponsor which will follow immediately afterward in the administration building."

"Cordially yours,
"Vice President and Gen. Mgr."

said. The most high-minded, the leaders, the highest figures in music, literature, statecraft, philosophy, all of these German Jews, were murdered.

"If we believe in the things that Jews stand for, everyone in this nation must do something about it," he stressed. "The whole Jewish race is being exterminated. Two million had been massacred by 1940, and this number has been doubled, tripled each year thereafter."

Must Be Moral Victory.
"This must be a moral victory as well as a military victory," Lewisohn concluded.

Mrs. Joel Trimble and Miss Carolyn Megarity led the audience in singing, "America," at the opening of the program, followed by several selections with Mrs. Trimble on the vocals, and Miss Megarity accompanying.

Dr. E. F. Waters, vice-president of the Lions Club, acted as master-of-ceremonies. In the absence of Fred H. Harvey, president, and Rabbi Harry Shapiro pronounced the invocation and benediction.

W. P. McCammon, president of the Board of Education, introduced the speaker, stating that Lewisohn was born in Charleston, S. C., had spent many years in Europe, Palestine and North Africa, and was the author of some thirty outstanding books.

Mrs. Minor Eason, Mrs. Una Bell and daughter, Marcia Lou, of Barry were in Corsicana to attend the "Children's Hour" program sponsored by the Nevins Club, at which Mrs. Eason's son, George, received an ovation following his stirring rendition of Chopin's famous "Polonaise in A Flat." George's interpretation of the number was one of the artistic highlights of the occasion.

said. The most high-minded, the leaders, the highest figures in music, literature, statecraft, philosophy, all of these German Jews, were murdered.

"If we believe in the things that Jews stand for, everyone in this nation must do something about it," he stressed. "The whole Jewish race is being exterminated. Two million had been massacred by 1940, and this number has been doubled, tripled each year thereafter."

Must Be Moral Victory.
"This must be a moral victory as well as a military victory," Lewisohn concluded.

Mrs. Joel Trimble and Miss Carolyn Megarity led the audience in singing, "America," at the opening of the program, followed by several selections with Mrs. Trimble on the vocals, and Miss Megarity accompanying.

Dr. E. F. Waters, vice-president of the Lions Club, acted as master-of-ceremonies. In the absence of Fred H. Harvey, president, and Rabbi Harry Shapiro pronounced the invocation and benediction.

W. P. McCammon, president of the Board of Education, introduced the speaker, stating that Lewisohn was born in Charleston, S. C., had spent many years in Europe, Palestine and North Africa, and was the author of some thirty outstanding books.

Mrs. Minor Eason, Mrs. Una Bell and daughter, Marcia Lou, of Barry were in Corsicana to attend the "Children's Hour" program sponsored by the Nevins Club, at which Mrs. Eason's son, George, received an ovation following his stirring rendition of Chopin's famous "Polonaise in A Flat." George's interpretation of the number was one of the artistic highlights of the occasion.

J. E. FOGG, FORMER CORSICANA RESIDENT, DIED MONDAY NIGHT

J. E. Fogg, age 65 years, died at his home in the Warsaw community in Kaufman county Monday night. Funeral services were held at Scurry Wednesday afternoon with interment in the Scurry cemetery. Masons had charge of the service at the grave.

Mr. Fogg was well known in Corsicana and in Navarro county. During his residence here he worked for the A. G. Smith Gin and at a gin at Corbett.

He was a native of Virginia but came to Texas when a small boy, settling in Rusk county, moved to Kaufman county in 1900 and to Corsicana in 1932. He recently returned to his home at Warsaw.

Surviving are his wife, three sons, Joe Fogg, in the U. S. army stationed in Kansas; Ernest and Raymond Blanton, Warsaw; one daughter, Johnnie Ruth Blanton, Warsaw, two brothers, two sisters and other relatives.

Pickett H. D. Club Hears Fathers Talk

The use of chicken feathers was the topic of a talk by Mrs. B. D. Christie at the Pickett Home Demonstration club meeting Monday afternoon, in the home of Mrs. D. J. Martin. Mrs. W. W. Martin was hostess.

Both the feather industry and the United States Department of Agriculture are interested in new uses for feathers, she stated. They are being used in camouflage, fertilizer, and fiber. It is important to take care of chicken feathers Mrs. Christie pointed out.

After a short business session the hostess served fruit jello, cookies, and ice tea to eleven members. The next meeting will be on March 22, in the home of Mrs. Ella Skinner, in an all-day meeting, with Miss Vera Sneed explaining the art of making chair seats.

SEPARATIONS AND SORROWS OF WAR RECALL UPPER ROOM*

About to Die For a Cause, Jesus Gave a Farewell Party to His Friends — Stressing For the Last Time, the Lessons of Life, He Set Forth the Eternal Values

By WILLIAM T. ELLIS.

Not all heroism is on the battlefield. There are millions of our brave men in action, or preparing for action, against pagan foes of God and His law; but there are more millions of brave spirits on the home front who heroically endure war's separations and sorrows. The high courage and cheerfulness and loyalty and service of the great company of parents and wives and sweethearts who have, dry-eyed and smiling, sent their loved ones off to war, may be unreported in the press or unmentioned on the radio; but it is war's finest spectacle.

Observers at the front report that the fighting men understand that the home folks have the harder part, the anxious waiting and fears through long periods of silence. The soldiers are more concerned for the welfare of the dear ones left behind than they are for their own safety. I saw this in the first world war. In the midst of action, at the very front, men spoke to me, as a war correspondent, saying, "Sometimes with their faces contorted in agony, 'Tell the folks back home that we are all right. The one thing we cannot stand is that they are worrying about us.'"

A Captain of Comfort

This truth about today leads us back to the Upper Room in Jerusalem, where Jesus, about to die, gathered His intimate group of friends for a farewell party. He wanted to prepare them for the separations and sorrows that lay just a few hours ahead of them. True; He also wanted these last moments of fellowship with those He best loved. His great heart was bursting with the immeasurable significance of the ordeal He was about to undergo. He craved the sympathy of close companionship. Most of all, however, He sought to make ready His friends for the dark future. And what Jesus said to the disciples in the Upper Room, He says also to sorrowing wives and mothers and friends who suffer today's ordeal.

Our picture is of the comforting Christ. His own sorrows were suppressed as He ministered to His friends. This was His last opportunity before His death to teach them the great truths that would enable them to carry on. He was leaving His work for them to finish. He knew well their weaknesses, some of which were revealed on this very occasion. Yet they were all upon which the Cause that was costing Him His life had to rely. If He failed, He would fail too. Small wonder that Jesus' last words were of tender intensity.

A Program for Life

Later in the evening, Jesus talked about His bequest of peace. But first He demonstrated the truth of self-abnegating service, upon which every new world order must be based, if it is to survive. While the disciples ignobly contended over the merits of each of themselves, the Master took a towel and a basin and ever, and washed their feet—normally the work of a slave or servant. He did this, knowing that He came from God and was returning to God. He clothed Himself in royal purple, as it were, before He girded on the servant's towel.

Jesus did not leave the significance of this deed to inference. He said, "I have given you an example, that ye also should do as I have done unto you." That plainly says, "If we would be like Christ, we should serve. Pride and selfishness must give way to ministry." This is a foundation stone of the new life that we call the Kingdom of heaven. The other way has created the mess in which the world today finds itself.

"Our Lang Hame"

Many other great truths the Man About To Die imparted that night to the little band that were

Seven Sentence Sermons

Faith in the life breed errors in the brain.—Cowper.

Certainty is the mother of Quietness and Repose; and Uncertainty the cause of variance and contentions.—Coke.

If aught can teach us aught, Affliction's looks. (Making us pry into ourselves so near).

Teach us to know ourselves, beyond all books. Or all the learned scholars that ever were.—Devis.

The Gospel is more than a book. It is a living thing, active, powerful, overcoming every obstacle in its way.—Napoleon.

Let not your heart be troubled: ye believe in God, believe also in me.—John 14:1.

Begin to be bold and venture to be wise: He who defers his work from day to day. Does on a river's bank expecting stay. Till the whole stream, which stopped him, should be gone. That runs, and as it runs, for ever will run on.—Cowley

The glory of our life below comes not from what we do or what we know, but dwells forevermore in what we are.—Henry van Dyke.

"The Sunday School Lesson for March 14, 1943 is, 'In The Upper Room'—John 13:1-17.

CREOMULSION for Coughs, Chest Colds, Bronchitis

Beware Coughs Following Flu

After the flu is over and gone, the cough that follows may develop into chronic bronchitis if neglected. Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

RITES ON THURSDAY FOR PAUL E. ALLEN; BURIAL IN OAKWOOD

Funeral services for Paul E. Allen, age 70 years, who died at San Angelo Tuesday, were held from the chapel of the Sutherland-McCannon Funeral Home Thursday afternoon. Revs. Robert F. Bristol and Thomas Lennox conducted the rites. Burial was in Oakwood cemetery.

Surviving are his wife, two sons, a daughter and other relatives.

Odena Bennett Weds Sgt. Lorain Adkins In Laredo March 6

Mr. and Mrs. Burl Bennett of Wortham, announce the marriage of their daughter, Odena, to Sgt. Lorain E. Adkins, which took place on March 6, in a double ring ceremony, at the Methodist parsonage in Laredo, Texas. The ceremony was conducted by the Rev. Heacock of that church.

The bride wore a blue suit with red accessories. Sgt. Adkins is at present stationed at Ft. McIntosh at Laredo. His home before going into the armed services was Houston, where for the past two years Mrs. Adkins has resided. Before going to Laredo to be married, she worked for the Houston Ship Building Corporation.

Mrs. Adkins has assumed the duties of secretary to Gerard Gorman, director of the National Catholic Community service and USO, in Laredo.

The bride and bridegroom were given quite a surprise when they visited the USO Sunday afternoon. They were greeted by the band playing the wedding march and an introduction as the "first bride and bridegroom to be welcomed in the new USO building."

On Monday night, Pvt. Harry Shaffe of Ft. McIntosh and Miss Sarah Rivera, of Laredo, treated the newly weds to an excellent dinner in Nuevo Laredo, Mexico.

Black Hills Baptist WMU Social Session

The Black Hills Baptist Women's Missionary Union met recently in the home of Mrs. Loyte Threat in a regular social session. The meeting opened with a prayer by Mrs. Everett Farmer and songs were led by Mrs. C. M. Stover.

After a short business session the devotional on the "Ninety and Nine" was given by Mrs. C. M. Stover. The lesson on the tenth and eleventh chapters of Numbers was led by Mrs. Threat. After the grab-box, the meeting was dismissed by Mrs. Paul Conn, Jr.

The hostess, assisted by her daughter, Mrs. Willie French, served refreshments to seven members and the following visitors: Mrs. Everett Farmer, Mrs. Paul Conn, Jr., Mrs. Willie French and Mrs. R. M. Drain.

TEACHER'S TASK

All this talk about rationing leaves out one factor, and that is the very human factor of the rationer—the school teacher. She is doing the whole job, and without ever having been asked if she were willing. Somebody else, probably the school boards and superintendents, have been magnificently generous with her services, and usually she has not even been thanked. Nor is it a substitute for her ordinary job. It comes in addition to it.

How would it be to let some other people share the glory of doing this essential work for the country? In some cases the P. T. A. members have been helping out nobly.

UNITED WE STAND

The attitude of the other American republics regarding this war is, with the exception of Argentina, very heartening. They have all helped with their loyalty and some have given large material help. Development of a great group of free and cooperative nations proceeds faster and means more than ever before.

An inspiring message came just the other day from Peru. President Manuel J. Prado pledges the entire strength and resources of his country to the war effort of the United Nations, explaining that his people adhere to the Atlantic charter "because they believe in a society where there is neither oppressor nor oppressed." He adds:

"Peru is straining every nerve to speed victory for the United Nations. Every asset we have has been granted to the cause of the democracies. We have given to the limit in raw materials of all kinds, and in transportation by land, air or sea, and we are ready to supply any other help that may be asked in the future."

The total material benefit may not be great in comparison with the vast requirements of this war. But it helps considerably, and the warm spirit of cooperation helps still more. This New World is being knitted together far more strongly than ever before, according to the fine old formula, "each for all and all for each."

WAR WINGS

Every week gives new evidence of the importance of air power in this war. It has seemed especially interesting and convincing in North Africa, during the crucial weeks in which American interests have been focussed on that front. Rommel's retreat at Kasarine Pass was a good example.

The other branches of service there have obviously done their part and done it very well. The artillery and infantry have been indispensable—the former in smashing and "softening up" the enemy preparatory to breaking his lines, and the latter in their traditional job of pushing through and cleaning up. But the successful accomplishment of these tasks has nearly always depended on overhead power; and the stronger the attacking air force, the quicker the task is done and the smaller is the cost of it.

A friend says he was feeling pretty hopeful about things lately, until he heard a minister say that the job of civilizing Germany was up to the United States.

Edgar A. Guest

The Poet of the People

THE HATED HITLER.
If what is done in France is fair
And what in Holland suits them
there;
If Norway likes the new regime
Of rolling tank and siren scream;
If Poland is contented now
Beneath the German yoke to bow
And Italy can find delight
In being forced to such a plight,
Then Hitler should sleep well to-
night.

But France in chains still French
will stay.
Once let the German look away
And France will strike, and Hol-
land, too!

Nor all that might has power to
do
Can make men love what they
despise.
Slaves always wait the chance to
rise.

So Hitler nightly has to keep
Tall guards about him, several
deep,
Before he dares to try to sleep.

Nowhere in all the world today
Could he find safety should he
slay:

No hand, with all his overthrown,
Where he would venture out
alone!

No park bench north or east or
west
Where he would dare to sit and
rest.

No place, by all his forces trod,
Defying all the laws of God,
Where Hitler could find safety nod.

POOR AXIS POWERS

The Axis powers are good at explaining how they get that way. One particular argument they love to advance is that they are poverty-stricken countries whose population taxes all their resources, and that the wealth of the world has already been seized by land-grabbing nations whose only claim to it is that they came first.

If that is true, what about China? Its swarming population lives as a rule two jumps ahead of starvation. If any nation needs to expand to take care of its surplus people, it is China. Yet China has got along without feeling it necessary to rob its neighbors. Why could not the Axis powers do the same?

BALTIC TROUBLES

The problem of the small Baltic states after the war presents difficulty out of all proportion to the size of the countries involved. Lithuanians, Latvians, Estonians, and Finns are markedly different in race and language from their Scandinavian, German and Russian neighbors, and would like to be independent. But so small are their countries that, except for Lithuania in the late Middle Ages not one enjoyed independence till after the first world war.

Had their powerful neighbors let them alone, they might be independent today. Germany and Russia did not let them alone. Each coveted the Baltic states as a buffer against the other, and each is likely still to do so.

Short of incorporation in the Russian Union of Soviet Socialist Republics, the one possible solution might be a Baltic Union, perhaps as allies of Sweden and Poland. In normal times this would be impossible to realize. If the war has taught those Baltic peoples the impossibility of standing alone, they may yet have a chance to stand on their own feet and develop as they choose their own way of life.

Seems as if Mme. Chiang Kai-shek is now a candidate for "America's sweetheart."

**Keep Beauty Alive!**

Keep beauty alive in your yard by getting rose bushes from Clowes. You will receive the finest varieties. Just plant them in a well-prepared bed and watch them develop.

**"UNTER DEN LINDEN"****USED SHOTGUNS ARE BEING TURNED IN FOR GOVERNMENT**

Navarro counties are responding well to the campaign sponsored by the American Well and Prospecting Company to secure used 12-gauge shotguns for the U. S. government, it was stated Wednesday at the Simon Daniels store, 322 North Beaton street, during a gathering of the desired firearms.

Telephone calls indicate that many more of the firearms will be submitted within the next few days, it was stated. Some ten of the shotguns have been accepted for the government while about twenty-five have been rejected as not meeting the requirements. The War Department is seeking the firearms—good used 12-gauge automatic, pump action repeaters and double-barrel shotguns. They are to be used for guarding purposes and to train soldiers and sailors in the art of wing shooting. Manufacturers cannot supply new shotguns fast enough and this campaign is being carried out during the remainder of March in order that the training program will not be slowed because of a lack of equipment.

NAVARRO COUNTY FARMERS RECEIVE CONSERVATION AID

Navarro county farmers have received a total of \$113,548.50 for 1942 conservation compliance reports received at the AAA offices here, reveal, Edmund D. Dillard, secretary, stated Tuesday.

The vouchers are sent directly to the producers and are not cleared through the AAA offices here in a program to conserve traveling to Corsicana for the remittances. After the checks are sent the producers, a report of the amount is mailed to the AAA office here by the government.

Surgical Dressings Being Made Now for County Hospital

While waiting for the next quota of surgical dressings to arrive, local Red Cross surgical dressings workers are now busy engaged in making 4 x 4 sponges for the P. & S. Hospital, and to date have made 5,816.

In connection with this activity, which was suggested by headquarters of the American Red Cross, Meadames A. B. Horn and W. H. Hastings announce that surgical dressings will be made for other hospitals in Corsicana upon request.

Realizing that hospitals are handicapped by a shortage of personnel, local surgical dressings workers are anxious to contribute their time and effort to preparedness on the home front.

UNUSUAL SUCCESS KILLING CATTLE GRUBS IS REPORTED

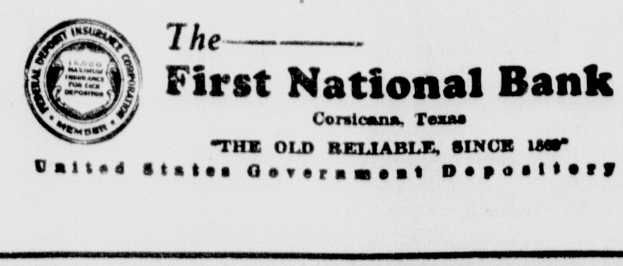

Unusual success in killing cattle grubs by use of the rotenone-sulphur dust treatment has been reported by farmers and cattlemen, according to County Agent H. C. Robinson.

This material consisting of equal parts of cube root powder and wettable sulphur, is dusted on the backs of infested animals, and has been found to be cheap, easy to apply and practically 100 per cent effective. Many herds have been treated with the third of a series applied at 30 day intervals to completely eradicate the grubs and the succeeding crop of heel flies. The difficulty of securing adequate supplies of cube root powder has prevented even more widespread use. However, the current "grub season" will soon be over, and it is thought plenty of the powder will be available by the coming winter to resume the program on much larger scale throughout the county.

Cattle grub control has been of special interest recently due to the increased war time demand for meat, milk, and hides for leather. Devastation of grubby animals at the rate of 1 cent per pound is now charged by buyers at the central markets.

"KEEP'EM FLYING!"**YOU MAY NOT BE ABLE TO FIGHT, BUT YOUR DOLLARS CAN.**

WAR STAMPS AND BONDS give each one of us an opportunity to help win the war...an American way to find the billions needed for Victory. Every Stamp and Bond you buy will help our boys at the front...and keep the skies over America clear of Axis raiders. And remember, your government guarantees that your money will come back to you with interest, as much as \$4 for every three when Bonds are held to maturity. Send more of your fighting dollars out to win the war. Give our boys in uniform a hand!

**RECOMMEND HUBAM CLOVER FOR SOIL IMPROVEMENT CROP**

The Navarro County U. S. D. A. War Board in its widespread simple practice program recommends the planting of Hubam clover as a soil improving crop. Many farmers, especially west of Corsicana have recently planted this year's crop. Planting should be in February or March at the following rate per acre, 15 to 20 pounds of scarified seed, 25 to 30 pounds of hulled or unhulled seed, and all seed should be inoculated. Additional information may be secured from H. C. Robinson, county agent or C. O. Ferguson, work unit leader, Soil Conservation Service.

E. L. Watson of Barry, a co-operator with the Navarro-Hill Soil Conservation District, has been successfully growing Hubam clover for the past four years. This annual white clover is soil conserving, soil building, may be used for temporary pasture, and produces cash crops in its hay and seed. It can be interplanted in small grain without interfering with the harvesting of the grain crop.

Illustrating the soil building qualities of Hubam, he states that a very conservative estimate on the increase of his cotton would be fifty pounds of lint per acre, and twenty to thirty bushels of cotton per acre. Cotton following Hubam was much greater and more thrifty than that on land where cotton followed cotton. There was very little root rot, where cotton followed clover as compared to a large amount of root rot where cotton followed cotton. The decrease in amount of root rot is attributed to Hubam since the root rot was previously scattered rather uniformly over a field.

Victory Roll Call For Rural Women

Texas will co-operate in the nation-wide Victory Roll Call for rural women by adding to the 250,000 Victory Demonstrations already enrolled, says Mildred Horton, vice director and state home demonstration agent of the A. and M. Extension Service. The Home-Food-Supply-for-Victory Roll Call has been scheduled nationally March 1 to 20.

"Planting, producing, and conserving food for home use on every farm and ranch and in all back yards is our first responsibility now," Miss Horton said in announcing Texas' plans in line with the Victory Demonstration.

Persons who sign the Victory Demonstrator's pledge agree to help win the war by producing food, feed and fiber for themselves and others; by taking care of food, clothes, equipment, as well as scarce materials such as rubber and metals; by buying War Savings bonds and stamps and by careful purchasing of necessary articles; and finally, by being cheerful and taking part in all war activities.

During the Roll Call period, Victory Demonstrators are being asked to enroll at least two other women or girls who accept the pledge. In addition, these leaders will be asked to encourage home gardening and other phases of the Victory Demonstration, Miss Horton

IN THE NAVY—BELTON, March 10.—(Sp.)—Ensign Julia Mangun, U. S. N. R., daughter of Dean and Mrs. Vernon L. Mangun, of Mary Hardin-Baylor College, has recently been assigned to duty in the San Francisco office of the Western Sea Frontier as the assistant to a lieutenant commander who supervises the work of the WAVES.

Miss Mangun was graduated from Mary Hardin-Baylor College in 1941, where her father is dean of the Liberal Arts school, and her mother is hostess of Ruth Stribling residence hall.

She received her commission at Smith college, Northampton, Mass., in January, and was among the 14 ensigns in her class who were sent to San Francisco.

Copies of the pledge card can be obtained from county agricultural and home demonstration agents of the Extension Service.

Ensign Betty Larr of the WAVES will arrive in Corsicana on Tuesday, March 23rd, to interview applicants for the Navy's Women's Auxiliary.

Pvt. Tate Lindsey, Jr., son of Mr. and Mrs. F. T. Lindsey, 1549 West Fourth Avenue, is now stationed at Camp Wolters, Texas, for eight-weeks basic training.

LEFT TURNS SIGNS INSTALLED ALONG BEATON STREET

Signs have been installed on signal lights on Beaton street allowing left turns on green lights at the intersections with Fourth, Fifth and Sixth avenues and Collin street, but no U turns. Left and U turns are still allowed at Third and Seventh avenues.

This is in conformity with the ordinance finally passed last week by the city commission. No left turns had been allowed for several years at the above-mentioned intersections, but the change was made as a gasoline saving movement so that persons would not have to drive around four blocks to proceed up the main thoroughfare when traveling to Beaton street in an easterly direction.

Officers Visiting Relatives Here

A party of U. S. Army Air Force officers on an inspection trip in this section landed at Corsicana Field, Air Activities of Texas, Tuesday afternoon at 1:30 o'clock and will resume their return trip to Washington, D. C., Thursday.

Included in the party are Col. A. L. Moore, who is visiting his parents, Mr. and Mrs. J. M. Moore, of Hubbard; Capt. Lynn Sanders, Jr., and First Lieut. Seton T. Holsey. Col. Moore's father has been seriously ill for several weeks. Capt. Sanders is visiting his parents, Lieut. Holsey, a former assistant criminal district attorney of Navarro county, is visiting relatives.

APPRECIATE AID IN REGISTRATION RATION BOOK NO. 2

Members of the Navarro county war price and rationing board are unable to contact each and every citizen who aided in recent registration of War Ration Book 2, stated Wilbur Wright, chairman, Wednesday, but they do wish to express their thanks and appreciation for the efficient manner in which they came to our aid.

All citizens of the county appreciate the fact that the schools conducted the registration in such a manner that there was very little delay and inconvenience in getting Book number 2.

Meat Restriction Order. Office of Price Administration legal department has given the local board a few interpretations regarding the meat restriction order. Some of these are:

"When a farmer kills livestock and delivers part of the controlled meat derived therefrom by either sale or gift to his son's home, such deliveries are restricted."

"When controlled meat resulting from a farmer's own slaughter is used in his own home consumption such use constitutes no delivery."

"A farmer who slaughters cattle of his own stock and sells the controlled meat derived therefrom in his own store or otherwise is either a slaughterer or non-quota slaughterer and his deliveries are subject to restrictions."

"A farmer who is not a slaughterer, but delivers controlled meat resulting from his own slaughter, is a non-quota slaughterer and subject to the delivery restriction."

"Deliveries of live animals are not restricted, hence any person may sell or give live animals to any other person without violating the order."

"A person who has never slaughtered and delivered beef meat before, is not prohibited from slaughtering for his own consumption."

"Bones and skins, after removal from the dressed carcass are not controlled meat since they are not edible. Goat meat is not mutton, and therefore, not included in the definition of 'controlled meat,' and deliveries are not subject to the control order."

"Pork heads are not part of the dressed carcass of swine and hence are not controlled meat. Tongues, hearts, livers, and kidneys and creek meat are not controlled meat since they are not part of the dressed carcass. Lard is specifically excepted from the definition of 'controlled meat.'"

Milford Community Singing. The second Sunday of each month is observed as Singing Day at the Methodist Church of Milford. Singers from several neighboring towns and communities are expected to take part in the exercises, which begin at 2:30 in the afternoon, next Sunday. Pastor B. B. Edmiston joins the singers in extending an invitation to the public.

DISTRICT MANAGER OPA SPEAKER FOR ROTARIANS TODAY

The Navarro County war price and rationing board merits high tribute, stated W. A. Orth, district manager of the Office of Price Administration, at the Wednesday luncheon of the Corsicana Rotary Club.

"The average of 'C' gasoline books issued in this state was 26 per cent, a very high number," Orth pointed out. "But in Navarro county, the average was only 5 per cent, reflection of a job well done."

Success of the district board and the regional board hangs on the local boards, he said. Rationing is not the sole responsibility of the Office of Price Administration, but of many other agencies. The men working in these boards and the OPA are all working in the interest of the public and are always ready to correct mistakes they have made, Orth stated.

"American people represent the armed forces," he said. "They accept rationing, sacrificing, and all these things with a grim determination to carry on until this job is done successfully."

Wilbur Wright, chairman of the Navarro county war price and rationing board, was in charge of the program, and had as guests H. F. Carmichael, district rationing officer; Tom Hickey, Roy Love and W. C. Stroube from the local board and the guest speaker.

Angus Chapter of Cemetery Association Elected Officers

The Angus chapter of the Hamilton-Beaman Cemetery Association met at the school on March 1, with eleven members present. New officers for the coming year were elected as follows:

Mrs. Jim Cox, president; Mrs. C. E. Gillen, vice-president; Mrs. Frost McCloud, secretary-treasurer; and Mrs. L. P. Tilton, reporter.

The next meeting will be held on March 15 at the school, at one o'clock, to piece a quilt.

Corsicana Officer Given Promotion

U. S. FIFTH ARMY, NORTH AFRICA, March 9.—(Sp.)—Captain Paul A. Dresser, of 949 West 7th Avenue, Corsicana, Texas, has just been promoted to Major in recognition of his work with the U. S. Fifth Army in North Africa.

Mrs. Dresser is living at their home while the Major is serving overseas. Major Dresser's parents, Mr. and Mrs. Ed Dresser, also live in Corsicana.

Other guests were Jake Hudson from the local rationing board, and Lonnie Beasley, a new member. W. P. Brown, president, was in charge.

MOTORISTS URGED OBSERVE ALL RULES OF GAS RATIONING

Pointing out that there is considerable misunderstanding on the part of the public as to the filling station operator's duties under gasoline rationing regulations, Wilbur Wright, chairman of the Navarro county war price and rationing board, Wednesday urged motorists to observe other rules which the station operator is obligated to follow.

Wright outlined the following things which the filling station operator must do under the OPA regulations: (1) He must ask for mileage rationing book before delivering gasoline. (2) Be sure correct ration sticker is properly displayed on the vehicle. (3) Be sure the vehicle is the same as described on the ration book cover. (4) Deliver no gasoline if ration book expiration date has passed. (5) Deliver no gasoline unless there are enough coupons for current period to cover purchases. (6) Deliver no gasoline unless the coupons are properly endorsed on the back by purchaser, and (7) Detach coupons from the book—accept no loose coupons.

Chairman Wright also reminded that upon cessation of use or change of ownership of any vehicle, boat or equipment, any ration issued for such units automatically

Mary Jane Etter of Dawson Be Secretary To Judge McCormick

Miss Mary Jane Etter of Dawson Monday will become secretary in the office of E. D. McCormick, county judge. She succeeds Miss Vivian Walker, resigned, who is now deputy in the office of E. B. Dawson district clerk.

Miss Etter has been secretary of the USDA war board and a clerk in the AAA offices for the past four years. A graduate of Dawson High school in 1935, Miss Etter is the daughter of Mr. and Mrs. J. H. Etter of Dawson.

expired and all unused coupons and books issued for them must be surrendered to the issuing rationing board within five days after date of ownership change or cessation of use.

"Motorists who have been issued 'C' ration books for a particular type of occupation must report any change in the principal occupation for the pursuit of which such ration was issued," Wright said, reminding that such changes must be reported to the local board within five days. Nature of the new job must be described fully in the report, he added.

Oak Valley H. D. Club. The Oak Valley Home Demonstration club will meet Thursday, March 11, with Mrs. Jim Taylor. All members are urged to be present.

CHILDREN OF SCHOOL AGE BEING COUNTED; VITAL IMPORTANCE

Census on the number of school children between the ages of six and 18 years in the Corsicana Independent school district, is being taken by E. A. Armistead, census trustee, assisted by faculty members of the city schools, W. H. Norwood, superintendent of schools in this city announced Wednesday.

This enumeration is of vital importance to the welfare of the schools for the next year, and is required by law, Norwood said. For every child counted, the local schools will receive a state appropriation of \$22.50 with which to carry on next year's work, he pointed out.

The scholastic enrollment last year was 3,124 with 310 transfers. It is the desire of the board of education to have every child of proper age who is a resident of the city of Corsicana listed on the enumeration. This enumeration has no connection with the state compulsory attendance law, Norwood stated.

Children Often Left Out. Each year it has been found that in four ways some children have been inadvertently omitted from the roll, and as it has been previously requested, it is hoped that omission coming under the following headings will be reported to the superintendent's office: 1. Those who may have been

out of the city during the census taking.

2. Those moving to Corsicana since March 1.

3. Children who will not be 18 years old on or before Sept. 1, and because of graduation and other reasons are not now in school.

4. Children under six years old who are not in school, but intend to enter next year, because they will be six years old on or before Sept. 1.

Must Be Counted. Children who do not live in the city, but who are attending the Corsicana schools now or plan to attend next year must be enumerated in districts wherein they live and a transfer from the county superintendent's office must be requested before August 1.

Children being counted in the census are those who will be six and under 18 years of age on September 1, 1943, and who are residents of the district on the first day of April. Children born on or before Sept. 1, 1925, or after Sept. 1, 1937, are not enumerated. Superintendent Norwood said.

During the next several days the parents will be contacted through the schools for this information. The co-operation of the parents will be greatly appreciated by the administration and the census enumerators.

CITRUS FRUIT CROP REPORT INDICATES PRODUCTION GOOD

WASHINGTON, March 11.—(AP)—The lost to Florida citrus growers from mid-February freezes now is proving light, the agriculture department commented in a report disclosing that orange production in the 1942-43 season, exclusive of Florida tangerines, totaled 78,126,000 boxes, five per cent less than last season.

Production of Texas oranges was estimated at 2,900,000 boxes compared with 2,550,000 last season, the report, released yesterday, disclosed. California production was estimated at 42,156,000 boxes compared with 51,532,000; the Florida crop was estimated at 32,000,000 boxes compared with 27,200,000 and the Arizona crop at 700,000 boxes compared with 690,000.

Florida's tangerine crop was placed at 4,500,000 compared with 2,100,000.

The largest crop of grapefruit on record was estimated at 46,650,000 boxes. Seasonal estimates and last season's totals by states showed:

Florida 25,000,000 and 19,200,000; Texas 16,600,000 and 14,500,000; Arizona 2,415,000 and 3,450,000; California 2,644,000 and 3,144,000.

The department estimated the California lime crop at 13,300,000 boxes compared with 11,753,000 last season, and the Florida crop at 175,000 compared with 150,000.

Fires Wednesday.

Two fires outside the city limits were answered Wednesday afternoon by the fire department.

A three-room house belonging to Guy Titus, negro, in the 1600 block on East Fifth avenue, was destroyed at 12:45 p. m. along with the contents. The loss was estimated by fire officials at \$750.

A heater caused slight damage to a floor at 104 South Thirty-first street Wednesday at 5:30 p. m.

Parking Meter Receipts.

Receipts from the parking meters in the downtown district the past week amounted to \$189.01, a reduction of \$9.57 from the \$198.58 figure for the previous week, an announcement from the office of J. P. Welch, city secretary, showed Thursday.

HEALTH, BEAUTY AND POISE

HOW TO IMPROVE YOUR PERSONALITY
By VERONICA DENGEL

PEPPERMINT TEA INSTRUCTIONS

I have repeated the instruction for making peppermint tea so often that I am surprised to know that all of my readers do not understand the procedure. Actually it is very simple, and still I keep getting requests for information about it.

Peppermint tea is simply the dried peppermint leaves which can be purchased by the pound in your grocery or health food stores. If it is available, I find the Swiss peppermint tea richer in flavor than any other. Just take a rounded teaspoonful of it and place it in a cup. Then pour boiling water into the cup until it is full. With a fork, keep pressing against the leaves while they are steeping in the water to extract the full flavor. In two or three minutes it will be strong enough—then strain into another cup, add honey or lemon to flavor. That's all there is to it.

But, in case you forget, don't you want to cut out these instructions and keep them for reference? Although I like to answer your queries as much and as often as I can, I feel that constant repetition may be tiring to those who already have learned the answers—or who have a reference file.

This holds true with requests on exercises and the preparation of the Epsom Salts bath. Next week I shall tell you about the Epsom Salts bath again—but after that we shall just have to wait some months from now to repeat these instructions. And if you do cut out the material, you may find someone who doesn't know what to do, and prove a help to them by letting them have your clipping. It isn't that I tire of repeating the routine—I am afraid of boring my readers—and that would never do, now would it?

As to the exercises, we had a series only recently—and still I keep getting more requests for the very type of exercises that were given. In a week or so we shall start another series—and I would like you to watch for them.

CIVILIAN DEFENSE MEMBERS EXPECTED TO ATTEND MEETING

All civilian defense members are expected to attend the firemen and auxiliary firemen meeting at the Corsicana Junior High School Auditorium Monday night at 8 o'clock. W. E. McKinney, chief of the Navarro County Civilian Defense organization, and H. P. Blvin, Corsicana fire chief, stated Thursday afternoon. McKinney is writing all district wardens in the county to have their workers on hand.

Chief Frank Williams of the firemen and fire marshals' association is making a tour of the country and is lecturing and demonstrating how to handle incendiaries, chemical warfare and fire prevention.

The purpose of the meeting is to better equip and train the civilian defense corps for action in an emergency, and also to stimulate interest in the civilian defense work.

Several hundred persons are expected to attend this meeting, with representatives from all sections of the county.

PARTY
CONTINUED FROM FIRST PAGE
word with the president in a reception line—that the tired executive would talk among themselves over punch and cookies until signalled to leave.

The only single clue that appeared was that the president was told, in the invitation, that the occasion would be social.

That was correct. All other guesses were entirely wrong. We gathered in the great East Room at the White House. Speaker Sam Rayburn acted as m. c. in this instance. The humor was in the "master of ceremonies." In single file we were ushered through a hall to the state dining room. The president greeted each of us with a friendly comment or question.

Entirely informal. Shortly a small group gathered around the president. Seated up close, the conversation was free and friendly—it was an intimate and social affair. Everyone had chance to get in at close range, ask questions and generally engage in conversation. Some congressmen was always ready with a light for the president's cigarette. It was that sort of an informal affair.

I think the one thing that impressed everyone—the one thing mentioned most in the crowd as we filed out—was the relaxed good health—and the humor—of the president. Take my word for it: he is anything but a tired old man. No recent photograph of him tells the truth as I saw it. President Roosevelt does not appear tired. His coloring is good and he appears to be in excellent health. He obviously enjoyed the gathering. He talked freely and seemed willing to talk on any subject and to welcome any sort of question. We don't I am told, ever directly quite the president at it may say that the war—on all fronts—but about building a system of highways after the war—and a score of other things. Strangely enough, no one asked him about the fourth term. I guess they just did not think of it—I know I didn't.

No Political Implication. If there was any deep political implication in the meeting I missed it. It seemed like just mighty good common sense to me—the idea of the chief executive of our country gathering new members of congress around him to get acquainted with them and for informal discussion. I do not think they chafed any follow-up away from the opposition—nor do I believe he had any particular intention along that line. He is very sure of himself—is certain he is right and obviously is not worried or really much concerned about what the other fellow thinks.

In bidding us good night—and

Activity of Great Significance for Junior Red Cross

Mrs. E. B. Dawson, chairman of Junior Red Cross in Navarro county, has received a communication from Eldon W. Mason, director of Junior Red Cross of the Midwest area, which she is requesting countenance and support in the public schools of Navarro county to read carefully, and to communicate with her at once if they plan to comply with the suggestion.

It concerns "School Correspondence with Great Britain" and is as follows:

"We are experiencing an ever-increasing demand for School Correspondence with United States schools on the part of members of the British Junior Red Cross. War time conditions have seriously handicapped the usual flow of School Correspondence between our two countries. The disorganization of the British schools because of war conditions, together with the fact that many of the children are in the front lines, are effecting the mails, threaten to limit the possibilities for the desired measure of exchange of correspondence between British and American school groups. However, a very interesting alternative possibly has been developed. A new program of correspondence known as "Letter-Booklets" has been set up.

Letter-Booklet Plan.
Under the "Letter-Booklet" plan it is suggested that schools prepare booklets which measure 8 1/2 by 5 1/2 inches, and contain approximately ten pages. The contents should consist of neatly written and carefully arranged letters, illustrated drawings, pen and ink sketches (or color work), snap shots, and a post card or two. Marginal decorations will add to the attractiveness of the pages. If good use is made of the space, these small booklets can be of value, will cost little to transport, and will not make excessive demands upon shipping facilities. These booklets should be prepared by school groups and not by individuals. Each group, or class, should prepare only one booklet at a time for exchange.

EASE THE PAIN OF SORE AND TORTURING PILES
The pain, soreness and other surface irritations caused by hemorrhoids, internal and external, can be relieved by the use of this ointment. Try a tube. P. & S. PHARMACY

ROUNDUP

CONTINUED FROM FIRST PAGE
retary of War Stimson of the fighting in Tunisia and a liberalizing of coffee rations.

Allies Had Better of Fighting.
Stimson said that while losses on both sides "have been substantial" the allies had "much the better of the fighting last week" in Tunisia. Price Administrator Prentiss M. Brown announced that, beginning March 22, coffee ration coupons will be good for one pound per person for five weeks. Now a pound must last six weeks.

There still were scattered skirmishes in the capital. Frowning on federal aid and executive control, congress set out to write its own post-war planning formula.

The senate struck the first legislative blow to solve the manpower puzzle by voting on farm labor deferment.

The long-brewing battle over the

change in England. The regular School Correspondence assignment sheets should be attached. We are assured that these "Letter-Booklets" will be welcome eagerly in England, and answered.

Here is an activity which permits American Junior Red Cross members to make a splendid contribution to the morale of British boys and girls. On the other hand, the "Letter-Booklets" which the Junior Red Cross members in your county will receive in reply to those which they sent to England, will be a source of great pleasure and stimulation to them.

Mrs. Dawson Urges Action.
Mrs. Dawson suggests that schools of Navarro County make plans immediately for the preparation of "Letter-Booklets," and that they may let the date by which time a large number of well-prepared "Letter-Booklets" will have been forwarded to her. Each school that plans to participate in the activity, is urged to notify her at once.

All schools that have not sent in their Junior Red Cross dues for the year are asked to send them at once. Although it is late in the school year, schools that send their dues will receive the Junior Red Cross publications for a whole year. The Junior Red Cross Journal of High School students, and the Junior Red Cross News for elementary students, are worth while in every way, and should be available to school children of the city and county if they are to be informed upon the activities of the greatest humanitarian organization in the world today.

Mrs. Dawson's home address is 508 North 24th St. for the information of those who may care to communicate with her concerning the above outlined plan for the American Red Cross.

president's salary limitation order hit the house floor in the form of a repeal.

Mopping up controversial suggested amendments, congress aimed to complete action on renewing legislation for another year within the week.

Labor Shortages.
Labor shortages appeared likely to force revival of a revised industrial concentration plan reported languishing since last summer.

The day loomed as a busy one for all hands—including the 117 new congressmen who attended the strictly social session at the White House last night to meet and greet the president and came away agreeing that it was a very pleasant evening, but "nobody was converted," politically speaking.

Congressional leaders took a crack at post-war economic problems, with a committee of the House probing the situation, and indicated strong opposition to executive control of the picture. The senate, on the other hand, concurred in a decision to dry further funds for operation of the National Resources Planning Board which yesterday turned in to the president more than 700 pages of war plans, programs and recommendations.

Closer to the average American's immediate economic status was the house Republicans' caucus call for next Monday to mobilize party strength behind Beardsey Ruml's plan to skip a tax year and put \$44,000,000 of income tax payers on a pay-as-you-go basis.

Deferment for Farm Workers.
Sharing nation-wide attention was the senate vote on deferring essential farm workers from military service—the first legislative stroke on the complicated manpower picture. Behind this scene, a senate committee called for information on a "straw boss" shortage in industry and congressmen heard official indications that all 3-A draft registrants may be drafted by midsummer.

Carrying the house 407-6 approving vote of yesterday, a measure continuing lend-lease for another year reached the senate. Not so smooth was the road ahead of a bill to boost the national debt limit—carrying a rider which would nullify the president's salary-limitation order. It was up for house consideration today.

Regional concentration of civilian industries came up for War Production Board consideration after reports that a nationwide plan of that type—vigorously launched by WPB last summer—had hit a virtual standstill. WPB officials seemed convinced that labor shortages could be met only by curtailing some less essential industries on a regional basis in order to free the workers of that area for war work.

POST-WAR PLANS

CONTINUED FROM FIRST PAGE
forces, civilian war workers and the vast industrial machine built up for war production be graduated "over a period of months."

A similar slow course be taken in relaxing price and wage controls, the rationing of consumer goods, and the controls over allocation of scarce raw materials and industrial and construction equipment.

The government maintain a partnership with private enterprise in such industries as aircraft, shipbuilding, aluminum and magnesium helping to decide "what areas and what concerns should continue to operate in these industries."

Railroads be consolidated into a limited number of regional systems under authority of a national transportation agency.

Labor Feature.
Labor be upheld in "the right to collective bargaining, fair wages and hours, healthy and effective working conditions, responsibility in organization and sharing in management."

Measures be taken in behalf of business to "eliminate avoidable uncertainties and needless burdens in the laws affecting (private) enterprise and in their administration."

Consumption taxes be "sharply reduced" and a tax structure set up retaining graduated levies on a "broadened tax base, with major emphasis on the individual income tax and less reliance on the corporate income tax."

A "post-war conversion reserve" provision be written into federal tax laws immediately to help private companies get back on a peace time basis after the war.

The social security reports main features were summed up by the board as:

Must Provide Work.
First, that our economy must provide work for all who are able and willing to work" and "equal access to education" must be made available for all youth through college age, with adequate funds for the school program provided by local, state and federal governments.

"Second, that for great numbers whose work is interrupted (either by temporary or permanent disability), the social insurance must carry much of the load of providing adequate income."

"Third, that where the insurance or work policies fail to take care of an interruption in income, adequate guarantees of minimum aid and assistance must be given both to individuals and families through a general public assistance system."

"Fourth, that where adequate services essential to the health, education and welfare of the population are not available, public provision should be made for the development of such services."

RUSSIAN

upon the invaders was south of Lake Ilmen, the government newspaper Izvestia said.

Izvestia announced that Marshal Semenov's forces driving along the highway from Demyansk had taken Staro-Ramushevo and were now within 15 miles of the big German base at Staraya Russa, the former health resort near Lake Ilmen's south shore. The newspaper said the Germans were withdrawing from the path of the Soviet advance under cover of intense artillery and mortar fire.

AFRICAN

Reports indicate that a number of Germans have been killed and wounded, the secretary said, while British and French losses in the recent fighting appear to have been relatively light.

During the last week, he said, the highly mobile forces of German Marshal Erwin Rommel have been extremely active in Southern Tunisia, but he called the net result of their activity decidedly unfavorable to the Axis.

large-scale operations, but Montgomery's big guns—the weapons that broke up six axis attacks with the loss of 52 tanks—were reported raining havoc on the Mareth defense works.

Some 130 miles to the northwest, Fighting French troops stormed and captured the mining center of Metouli, 25 miles southwest of Gafsa, an Algiers broadcast said.

In the north, Lieut.-Gen. K. A. N. Anderson's British 1st army was reported continuing its patrol activity in the Sedjenane sector, 35 miles west of axis-held Bizerte naval base, where the Germans have been attempting to widen their narrow defense corridor.

Allied military observers said the axis was now on the down grade in Tunisia, following a series of costly offensive jobs, and declared that with the Royal navy controlling the sea and allied planes clearly superior in the skies, Rommel and his estimated 250,000 troops had little chance of a "Dunkerg escape" from the North Africa trap.

French Forces Active.
Secretary of War Stimson said today that fighting French troops had made contact with other French legions in a flanking movement around the southern end of the Mareth Line in Tunisia, thereby sealing the trap on 250,000 axis troops under Field Marshal Erwin Rommel.

Stimson said Gen. Le Clerc's fighting French columns, who had driven more than 1200 miles across the desert from Lake Chad in the heart of Equatorial Africa, closed the ring around the axis by contacting Gen. Henri Honore Giraud's French forces.

Stimson's disclosure was linked with the statement that allied forces in the Tunisian battle theater "had much the better of the fighting last week," but he said that losses on both sides had been substantial.

The War Secretary told newsmen in Washington that the allies had captured more than 1,000 German and Italian prisoners and destroyed well over 100 tanks.

In northern Tunisia, Allied military quarters announced, Col. Gen. Jurgen von Arnim's Axis forces attacked British 1st Army lines in the Sedjenane sector with dive-bomber support yesterday but were driven off with heavy losses.

Frontier dispatches said Allied troops continued to squeeze closer to the German base at Gafsa, and French troops were reported closing around the strongpoint.

On the Russian front, Hitler's high command asserted that nazi shock troops were battling "on the edges" of Kharkov, in the Ukraine, while in the north the Russians reported impressive new gains.

Bomb Burma Bridge.
NEW DELHI, India, March 11.—(P)—United States heavy bombers delivered a 12-ton bomb load on the Pazundaung bridge north of Rangoon in Burma yesterday and scored five direct hits on the north end of the structure, a communique from American headquarters announced today.

All the American fliers returned safely.

French Guerrillas Active.
LONDON, March 11.—(P)—A special communique, detailed "General Headquarters of French Guerrillas and Partisans Somewhere in France" which was released by the Fighting French here today said 250 German officers and men were killed and several hundred wounded in the wrecking of an east bound troop train.

This special report was announced a short time after General

Charles De Gaulle disclosed receipt of the first communique from the secret headquarters, which said 300 attacks had been made against the Germans and their war machine in France between Dec. 20, 1942 and Jan. 20, 1943.

Fighting French said the bulletin showed the patriots had killed 282 German officers and men, wrecked or damaged 14 trains, destroyed 94 locomotives and 436 coaches, destroyed 26 trucks, started 12 major fires, wrecked 10 labor exchanges or collaborationist buildings, destroyed 1,000 tons of fuel and requisitioned food and killed 10 "informers of French nationality" during the month.

The Guerrillas and partisans were reported to be commanded by generals whose names would be disclosed after the war.

TAXES
CONTINUED FROM FIRST PAGE
off the previous year and thus start pay-as-you-go. Withholding of wages or salaries then would be applied against the tax obligation on their current year income. The committee is considering a discount of perhaps 5 or 10 per cent on outstanding tax obligations for persons paying off the previous year in full and becoming current.

3. In the case of new taxpayers, about 4,000,000 persons having taxable income for the first time in 1943, the withholding would begin July 1 and they would have only the first half of 1943 to "catch up" to become current.

4. Taxpayers whose liability ran to more than the 20 per cent withholding rate, and those in the first bracket (\$2,000 or less taxable) having income other than wages and salaries, would pay their third and fourth installments of the 1942 obligation after deducting the amount of taxes withheld by the 20 per cent levy.

FITCH SHAMPOO DISSOLVES AND WASHES AWAY DANDRUFF
Fitch's Dandruff Remover Shampoo is the one shampoo guaranteed to dissolve and wash away every trace of dandruff, dirt and foreign matter with the very first application. The way Fitch Shampoo accomplishes this task is by actually entering the tiny openings of the scalp, and dissolving the dandruff in a rich, stimulating lather. Then this creamy lather washes away the undesirable accumulation. Your scalp is left antiseptically clean and free to function normally. Your hair shines with soft natural lustre.
